REMOTE SKILLS · PAYING IN INSTALMENTS

Additional Terms Instalment Payment

The additional ground rules when you pay for a Remote Skills programme in instalments: what you agree to, what is added, what happens if a payment fails, and what you may expect from us and from yourself.

Version 1.0 Last updated 14 September 2026

In short

Brief summary without legal status. The articles below are leading.

- Paying in instalments is a payment arrangement for the **full amount**, not a subscription you can stop halfway.
- The instalment amount includes a surcharge for administration, interest and debtor management. That is why the sum of the instalments is higher than the price paid at once.
- If a payment fails or is reversed, we charge €40 per reversal and the remaining balance may become due in full.
- Your payment obligation is independent of your results. Results depend on your own effort; we deliver everything that was agreed.
- Components tied to an instalment (such as the white label bestsellers) are released per paid instalment; with the last instalment everything opens.

ARTICLE 1

What these terms apply to

These additional terms apply as soon as you pay for a Remote Skills programme, package or licence **in instalments** instead of at once, for example the AI Founder Box or the AI Founder Box Premium in three instalments. They apply alongside the general terms and the platform terms. In case of conflict these additional terms prevail over the general terms, insofar as the instalment payment is concerned.

We do not offer instalment payment as standard. It is an accommodation on request, and the rules below exist to keep it neat and predictable for both sides.

ARTICLE 2

Payment arrangement for the full amount

With your order you enter into a payment obligation for the **full agreed amount**: the number of instalments × the instalment amount as stated on your order. The instalments are a payment arrangement, not a monthly subscription. You cannot cancel or stop the arrangement in between; you can pay the remaining balance at once at any time, after which nothing further is charged.

Instalments are collected automatically through the payment method you chose at checkout, one month after the previous instalment each time. After the last instalment the collection stops automatically; no further charge follows.

> An honest word: only enter into this if you can carry all instalments, also if earning it back goes slower than you hope. If you doubt that, do not choose instalments.

ARTICLE 3

Surcharge for administration, interest and debtor management

Paying in instalments means extra work and risk for us. The instalment amount therefore includes a **surcharge for administration, interest and debtor management**. As a result the sum of the instalments is higher than the price that applies when paying at once. The instalment amount and the total are stated on your order and in your confirmation; nothing is added on top as long as every instalment is paid.

ARTICLE 4

If a payment fails

If a collection fails or a payment is reversed, we retry the collection and notify you. For every failed or reversed payment we charge **€40 administration costs**.

If an instalment remains unpaid after a reminder, we may pause access to the programme and its components until payment is made. If you do not meet your payment obligation, **the full remaining balance becomes due at once**, plus statutory interest and extrajudicial collection costs according to the statutory scale. This obligation remains, also if you no longer use the programme.

ARTICLE 5

Payment is independent of results

We deliver everything that belongs to the programme: the knowledge, the tools, the guidance and the components as stated on your order. The results you achieve depend on **your own effort**. There is no income or results guarantee, unless a guarantee explicitly belongs to your programme; for such a guarantee the terms of that programme apply, including your own effort obligation.

Your payment obligation is therefore **not dependent** on the results you achieve, on how much of the programme you use, or on when you start.

ARTICLE 6

Components released per instalment

Some components of a programme are tied to your payment rhythm. With the AI Founder Box and the AI Founder Box Premium in instalments, the twelve white label bestsellers are released per paid instalment: four with the first, eight with the second and all twelve, with full licence rights, with the third. The rest of the programme (the academy, the platform, the software and, with Premium, the guidance and the live sessions) opens right after the first instalment.

If you do not want to wait, you can pay the remaining balance at once at any time; everything is then released immediately and the running collection stops.

ARTICLE 7

Licence and intellectual property

You receive a personal right of use to the components released to you, including the licence and resale rights that belong to the programme. That right of use lapses as soon as the payment arrangement is terminated for non-performance; the payment obligation under articles 2 and 4 continues to exist.

ARTICLE 8

Other

In addition to these additional terms, the terms and conditions, the platform terms and the refund policy continue to apply. By completing your order with instalment payment you agree to these additional terms.
